Pune, Maharashtra.

SUMMARY: -

Computer Engineering student with an AI Engineer certification and strong knowledge of Python, Machine Learning, Deep Learning, SQL, and Data Analysis. Passionate about building AI solutions through hands-on projects and eager to start my career as an AI Engineer while continuously learning and contributing to innovative projects.

TECHNICAL SKILLS: -

Python, SQL, Machine Learning, Deep Learning, Artificial Intelligence, TensorFlow, Scikit-learn, OpenCV, Pandas, NumPy, Data Pre-processing, Feature Engineering, Exploratory Data Analysis (EDA), Model Development, Model Training, Model Evaluation, Predictive Modelling, Computer Vision, Power BI, Data Visualization.

EDUCATION: -

- Bachelor of Engineering (Computer Engineering), Savitribai Phule Pune University (2022–2026) **Final Year SGPA: - 9.20 & Engineering CGPA: - 7.57 FIRST CLASS.**
- HSC (Science), Shri Fattechand Jain Vidyalaya & Junior College, Pune (2020–2022)
Percentage: - 70.17 %.

EXPERIENCE: -

Machine Learning Intern | BITMAP Technology: -

Jan 2026 – Apr 2026

Worked on AI and Machine Learning projects using real-world datasets. Performed data cleaning, pre-processing, feature engineering, and model development. Built, trained, tested, and evaluated predictive machine learning models while collaborating with the team to deliver client projects and AI Proof of Concept (POC) solutions.

AI Expert Consultant Intern | Rubix: -

Nov 2025 – Apr 2026

Developed AI and Machine Learning models for Flight Fare Prediction, House Price Prediction, Insurance Cost Prediction, Rice Leaf Disease Detection, and Employee Performance Analysis. Performed data pre-processing, feature engineering, model development, evaluation, and predictive analysis while contributing to client projects and AI Proof of Concept (POC) solutions.

PROJECTS: -

- **Machine Learning: Flight Fare Prediction, House Price Prediction, Insurance Cost Prediction, Rice Leaf Disease Detection, and Employee Performance Analysis.**
Technologies: Python, Pandas, NumPy, Scikit-learn, TensorFlow, OpenCV.
- **Power BI: Cafe Sales Analysis Dashboard, Bike Sales Analysis Dashboard, Mobile Sales Analysis Dashboard.**
Technologies: Power BI, DAX, Power Query, Excel, Data Visualization.

CERTIFICATIONS: -

- | | | |
|------------------------------------|--------------|-----------|
| • Artificial Intelligence Expert – | IABAC | 2026 |
| • Certified Data Scientist – | IABAC | 2026 |
| • Data Science Foundation – | IABAC | 2026 |
| • Python Programming – | TechMaster | 2024 |
| • AI Engineer Course – | DataMites | 2025–2026 |
| • Microsoft Power BI – | Skill Course | 2026 |

SOFT SKILLS: -

Analytical Thinking | Problem-Solving | Critical Thinking | Communication | Teamwork | Attention to Detail | Time Management | Adaptability.
